## THE ULTIMATE STRENGTH TEST

Having a great looking vanity is one thing. Having a vanity strong enough for your whole family is another!

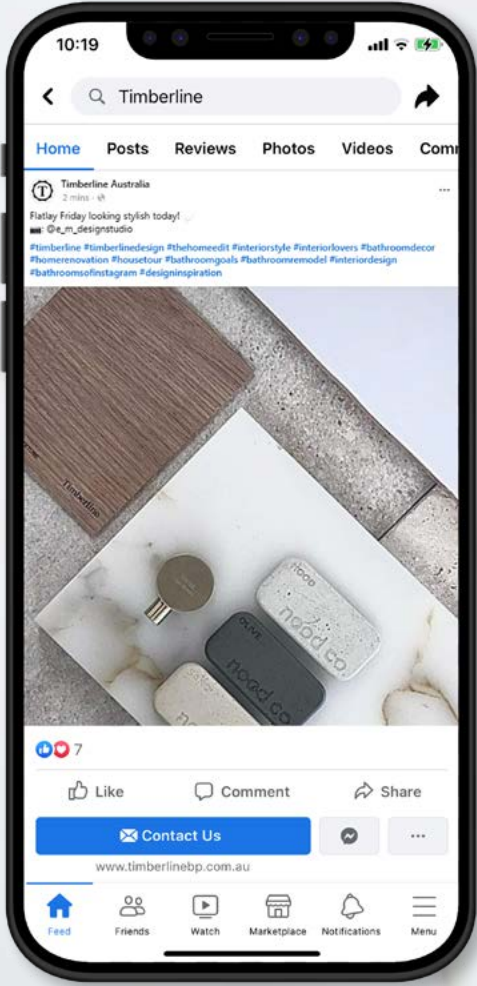

We tested the strength of a 1500mm wall hung vanity installed using the bare minimum number of fixings to meet our installation instructions. Then we loaded it with 37 bags of cement totalling 740kg. With our solid rear panel which is tongue and grooved into the cabinet the vanity supported this full weight. With Timberline, you can be assured you aren't just getting a pretty face! Our vanities are tough!

740kg!! On a wall hung vanity!

# What Makes Our Furniture Special?

**Tongue And Groove Jointing**  
All the solid backs and bases are assembled with a tongue and groove joint with multiple cam fix points. This creates exceptional strength and durability, particularly for wall mounted cabinets. The tongue and groove joint prevents the side from pulling away from the back when pressure is placed on the vanity top.

**Soft-Close Hinges**  
Only the best European fully adjustable hinges are used. This allows them to be easily adjusted and offer a long life span. All hinges include built in soft-close mechanisms.

**Moisture Resistant Board**  
All our cabinets are manufactured with Moisture Resistant (MR) Board. This gives you the best protection against swelling and other moisture damage. All our board is sourced from responsible, certified suppliers, and is an “E0” low formaldehyde eco-friendly product.

**Solid Vanity Back**  
At Timberline we always use a full 16mm solid back. This ensures the greatest stability for our vanities and makes mounting and installing a breeze. We never use a 3mm paper lined MDF back.

**Construction Brackets**  
Specially designed internal brackets make a neat and strong finish.

**Durable Edging**  
The edging on our woodgrain cabinets is a strong ABS with matching grain. This means you will get years of durable service from your new woodgrain cabinet.
