

Custom Modular Laundry Collection

Why Choose Timberline

100% AUSTRALIAN MADE CABINETS

Every single cabinet in this brochure is 100% Australian made. That means you know you are getting a reliable product from a reliable source.

CUSTOM MADE DESIGNS

If you would like a wall to wall laundry we can accommodate the size with a custom made laundry system to suit your individual needs.

MIX AND MATCH

You can mix and match your selections from our huge range of cabinet colours and handles. Personalise your laundry to create the perfect look!

EASY DIY INSTALLATION

DIY Installation is easy with our modular system. Each module is built ready for you to install. No flat packs here.

Add Value

The modular laundry system
is a fully customisable solution
to suit your individual needs.

5 YEAR WARRANTY

It is with pure confidence that we guarantee
all our laundry cabinets for a full 5 years.
We believe in what we do!

Green Tip

Look for eco-friendly detergents that are plant-based, phosphate-free, and biodegradable.

Complete laundry
cost as pictured

\$2,224

See page 36 for laundry sink details. Tapware and appliances not included. Top cut-outs are to be done onsite.

Pro Tip

Consider space for a dryer for those rainy days or emergencies. You can stack the washing machine and dryer to maximise space.

RECREATE THIS LOOK

This layout is perfect for maximising space with the ability to hide your laundry away behind doors to keep things tidy. The combination of woodgrain and painted cabinets is a sure way to add depth and vibrancy to a small space.

Pro Tip

Designing a wall to wall laundry?
Consider whether you need
custom sized cabinets to suit!

RECREATE THIS LOOK

Create a sophisticated and functional laundry space with a sleek Black Satin finish. Ample storage keeps everything neatly tucked away, while a spacious laundry bench and a handy clothes rail makes sorting and organising a breeze.

Complete laundry cost: **\$7,387**
(with standard cabinets instead
of Push-To-Open doors)

CABINET & DRAWER INTERIORS

The classic white cabinet interiors, made from melamine, are durable and able to withstand daily wear and tear. Adjustable shelves and drawers fitted with soft-close fittings guarantee a clean and organised look. Every cabinet comes with a 5 year warranty and is proudly manufactured in Australia.

LAUNDRY SINK

Our 61 litre 304 stainless steel laundry sink is useful for hand-washing clothes, treating stains and even just cleaning up around the house. It can be dropped into a slab or laminate top with ease.

Includes plug and waste.

Stainless Steel Laundry Sink

SKU	RRP
LND-OPT-SINK	\$637

NOTE: Minimum base unit required 600mm W x 570mm D.

LAUNDRY RAIL

The laundry rail gives you plenty of room to organise your clothes and ensure they stay dry and crease-free whatever the weather.

Laundry Rail

SKU	RRP
LND-OPT-RAIL-CR	\$52 per metre
LND-OPT-RAIL-BL	\$52 per metre

How it Works

WHAT WE GIVE YOU

Fully assembled individual modular cabinets

Blank slab to be cut onsite

WHAT YOU NEED

Cabinet maker or DIY handyman for installation of cabinets in your laundry

Laundry sink and tap

Plumber for connecting your sink and washing machine

Screws, bolts or plugs for fixing your cabinets to the wall

Tools required for installation including level, planer, screw gun, drill, drill bits, hole saws, jigsaw, etc.

Ordering Checklist

The modular laundry cabinets in this brochure let you configure endless combinations and layouts. But before you let your creative side run wild, a bit of planning is needed to ensure that you end up with the stunning laundry you're looking for.

CHECKLIST

- ☐ Measure the total overall size you have available. Remember to make allowance for wall tiles if your laundry hasn't yet been tiled.
- ☐ Check your washing machine and tumble dryer sizes and confirm with the manufacturer how much free space is required around them. We advise that you provide a bit too much free space rather than too little. This ensures that if you replace your machines later you won't be left with a space that is too small. Minimum 650mm gap is recommended.
- ☐ Select your preferred cabinet layout from the options.
- ☐ Check your laundry sink size with your plumber. We recommend a 900mm base cabinet to fit the sink. Some smaller sinks may fit into a 600mm base cabinet.
- ☐ Place the sink next to your washing machine. This allows your plumber to connect the water pipes for the machine.
- ☐ Work out your benchtop length. Once you have your cabinet layout confirmed, you can do this by adding up the CABINET + END PANEL + WASHING MACHINE sizes to work out the overall benchtop length.
NOTE: Maximum laminate benchtop length = 3600mm.
Maximum SilkSurface benchtop length = 3000mm. Cut outs are to be done onsite.

THINGS TO CONSIDER

- **Does the side of your cupboard butt up against a wall?**
If so, be sure to order a FILLER PANEL to go between the wall and the side of the cupboard. This allows for a neat finish and helps to prevent doors and drawers from scraping up against the wall.
- **And what if they don't butt up to a wall?**
END PANELS provide a tidy finish for washing machines, dryers and cupboards that don't butt up against a wall, creating a smarter looking space overall. Of course, this isn't mandatory – the sides of all Timberline laundry modules are finished in the same colour at the fronts, making a neat, finished cabinet.
- **For wall to wall laundries...**
If you are creating a wall to wall laundry we can make a special width cabinet to suit! For example, we can reduce the size of a 900mm cabinet to 850mm, priced on next size up.
- **Not all appliances are created equal!**
Be sure to consider the depth of your chosen appliances when designing your laundry. Different appliances are different sizes, and so they may protrude further than the benchtop when installed, rather than sitting flush with the top edge.
- **Avoiding cabinet and drawer creep...**
Ensuring that you start with a level surface before installation is the best way to avoid cabinet doors and drawers from unexpectedly creeping open. Be sure to check out the **Installation Instructions** at [timberline.com.au](https://www.timberline.com.au) in preparation for cabinet installation and drawer adjustments.

Check the pricelist pages to confirm available options. Please check your selection carefully as Timberline cannot be held responsible for incorrect choices.

PRO TIP - CONSIDER YOUR APPLIANCE SIZE

- Keep in mind the width and depth of your appliances when designing your new laundry. Most appliances are 650mm wide however depth can vary and they may protrude further than the benchtop when installed, rather than sitting flush with the top edge.
- **NOTE:** It is always best to check with the manufacturer for the required space around your appliance.
